

Appl. No. 10/049,950
Amdt. Dated November 24, 2003
Reply to Office Action of May 22, 2003

ABSTRACT

An electrical connector containing one or more connector modules, each having at least one contact support and a multiplicity of contact elements connected to the contact support in a non-releasable manner. The electrical connector allows for high-quality electrical connections to be reliably established.
